

## Instruction of installation Collins dictionary for BlackBerry

1. Unzip the package that you downloaded. After unzipping the package you will get the folder in which you will find two files:  
\*.alx  
\*.cod
2. Connect your BlackBerry to your PC by the special phone's cable instrumentality (via Infrared or Bluetooth wireless technology).
3. Launch the BlackBerry Desktop Manager on your desktop computer.
4. Make sure the device is connected to the computer and turned on (the status "Connected" is displayed in the appeared window).
5. In the desktop manager window launch the Application Loader.
6. Press Next.
7. In the appeared window press the Add button and choose the \*.alx file.
8. Press Next then press Finish.
9. Find **Collins** icon on your BlackBerry and launch application.

This version supports the devices with BlackBerry OS 4.2.1 and higher.
